## INTRODUCTION TO INSPIRE

The EU-project »Inspire School Education by Non-formal Learning« (INSPIRE) fosters information and learning on renewable energy and climate change. The vision of the project INSPIRE is to improve the quality and attractiveness of in-service teacher training in an extracurricular context and by using new learning places.

## OBJECTIVES OF INSPIRE

- to create synergies between out-of-school places and curricular learning
- to develop special materials for teacher training on renewable energy and climate issues
- to test such materials with a view to a subsequent use in educational contexts

INSPIRE's goals are therefore very much in line with the objectives of the UN Decade of Education for Sustainable Development. INSPIRE is a project in co-operation with the Regional Centre of Expertise for Education for Sustainable Development in Hamburg and Region (RCE Hamburg).

## PROJECT TEAM

 Hochschule für Angewandte  
Wissenschaften Hamburg  
Hamburg University of Applied Sciences

### LEAD PARTNER:

**Hamburg University of Applied Sciences (Germany)**  
Faculty of Life Sciences  
Research and Transfer Centre »Applications of Life Sciences«  
Prof. Dr. Walter Leal (BSc, PhD, DSc, DL)  
Project team: Veronika Schulte • Silke Kracht  
E-mail: ftz-als@ls.haw-hamburg.de

### OTHER PARTNERS:

**Förderverein NaturGut Ophoven e.V. (Germany)**  
Dr. Hans-Martin Kochanek  
E-mail: h.m.kochanek@naturgut-ophoven.de

### Daugavpils University (Latvia)

Prof. Dr. Anita Pipere  
E-mail: anita.pipere@du.lv

### Panstwowa Wyższa Szkoła Zawodowa W Raciborzu (Poland)

Dr. Beata Fedyn • Dr. Ilona Gembalczyk  
E-mail: beata.fedyn@pwsz.raciborz.edu.pl
